Message from the President

Dear Fellow Cricketers,

Before I make my report, I would like to acknowledge with deep respect – the executive committee and fellow members of CPAN for providing me an opportunity to steer this organization since 25th March 2018.

My term as a President has focused on stability, bringing in new ideas and set of different guiding principles of sustainability. We set ourselves some pretty simple goals –stability, a focus on purpose and membership value for the welfare of Nepalese cricketers. Now we require immense more inputs and support from our cricketers and well-wishers. For this, we need to have pro-active, responsible members onboard. I hope this will be a major focus for the upcoming years as well, going forward.

We are now involved in creating a positive environment for the development of national and international cricket players and also assisting in maintaining the integrity of the game. The strengths of our unity, friendships and mutual collaborations are our organization’s greatest assets. During this year, we have given our priority to organize an annual event “NCCS-CPAN Cricket Awards 2019” to recognize and celebrate the incredible cricket players achievements and successfully organized this event as well.

Thanks to the players and supporters for extending their love and support to cricket and CPAN. We, at CPAN, will continue to look forward to ensure that we work for the betterment of cricket and cricketers, and expect support from everyone in our future endeavours.

Finally, I would like to thank you all for coming and for your active participation.

With warm regards,

Dr. Manish Raj Pandey
President

Message from the General Secretary

Hi All,

Firstly, I would like to sincerely thank our members and the executive committee for their enormous efforts and support throughout the year.

Every year AGM reminds us that we have done so far and what we need to do to address the ongoing challenges. Our goal here is to place our organization at the centre of Nepalese cricket. It can be successful if it is part of our cricketers' collective voice. I truly believe in team work. In this regard, when we established CPAN as an organization, our vision was based around the principles that we embrace ourselves as 'one umbrella association of cricketers' - we aren't divided up into sections, we are 'ONE'. We are always with cricketers for the welfare and development of every facet of the cricket game and players. Thus, we are trying to strengthen our organization's principle to provide a forum for the cricketers to meet and exchange information, ideas and solutions to important technical and non-technical cricketing matters and issues. We are offering individual members an opportunity to expand personal and cricketing networks, and improve their own skills and knowledge and make contribution to the development of cricket.

In the meantime, this year was very fruitful in terms of our performance after getting ODI status. If we look at Nepalese cricketers' performance during this period, it was really satisfying and we have to be proud of that.

Let me conclude, these are interesting times, the changing times, the times are changing, increasing responsibility and cricket for our nation is upon us. We must keep up with the changing times. We must do something and contribute from our side to strengthen our every effort.

Looking forward for fruitful year ahead.

Cheers!

Paras Khadka
General Secretary
